## 3. Wait for the system to search the device and connect the device, and click "complete" after the step.

#### tuyo<sup>®</sup>涂鸦智能

# NO.3.4.1 Add Manually- Wi-Fi-AP Mode

 If the network in your home is 2.4Ghz and 5Ghz mixed, you can use AP mode (compatibility mode).

2. If you use AP mode to connect devices, you need to follow the three steps in the page to set the indicator light to blinking slowly.

#### **NO.3.4.2** Add Manually--ZigBee Devices

1. You will have to connect gateway first before connecting ZigBee devices. Therefore, please click "Add Manually >> Others" and choose a gateway. 2、Power on the gateway and connect it to the router through. 3. Please make sure the phone and the gateway connects to the same LAN. (The Wi-Fi needs to be 2.4G.)

# NO.3.4.2 Add Manually--ZigBee Devices

 Most devices can connect with the APP through Smart Mode (the default mode) and AP Mode.
 Except these two pairing modes, some devices (such as IPC devices and gateways) also have Wired
 Network Configuration mode.

## **NO.3.4.3** Add Manually--IPC Devices—Wired Network Configuration

2. If you use the QR code to configure the network, you need to set the indicator light of the IPC device to a fast flashing state or hear a prompt tone.

3. The reset steps can be viewed by clickingthe "Perform net pairing as prompted"button.

## NO.3.4.3 Add Manually--IPC Devices—QR Code Distribution Network

4. After clicking "Next" you will be taken to the page for entering the Wi-Fi password.
5. Follow the prompts on the page, please scan the QR code from 15to 20cm away.
6. If you heard a prompt, please click "I heard a prompt" to the next stage.
7. If the network configuration fails, the following page will be displayed.

Lightning distribution network is different from the original Wi-Fi distribution network. When there are devices that support lightning distribution network in the home, it will automatically scan for nearby devices, and there is no need to enter Wi-Fi information again, which reduces the probability of Wi-Fi errors. Increase the success rate of distribution network.

After adding "Automation", you will see
 a page called "Create Smart" that will
 guide you through the setting.

2. You need to set up conditions that will be used later to trigger the scenario. Here, we take "Weather change" setting as an example.

 After you click" Weather change", you need to set up conditions in more specific terms. Here we choose

"Sunset/Sunrise" as an example.

4. The execution conditions can be selected from sunrise or sunset, and the time period before and after sunrise or sunset can also be selected. After selecting the execution time and go to the next step.

					ou want to deactivate e account?
					leactivated, all user data under I be deleted permanently.
					ОК
		Cor	ıfirm		
					Cancel

- Click "Me Profile -Account and Security" .
- 2. Click "Deactivate
  Account" at the bottom
  of the page. Once you
  confirmed, your account
  will be permanently
  deleted after 7 days and all
  data will be removed.
- The deactivation will fail if you re-login the account before the process done.

#### **NO.8.2** Personal Center-Pattern Lock

Forgot Pattern Lock

Forgot Pattern Lo

::!! 🗢 🔳

1. After clicking the "Pattern Lock" option, you can set a gesture password. After enabling the gesture password, you will need to enter the gesture password every time you log in to enter the App. 2. If you forget the gesture password when logging in, you can click "Forgot gesture password" to change it. If you enter the gesture password incorrectly five times in a row, the system will log out of the current login account. You need to verify your identity with the account password and reset the gesture password.

# Thank You
