Date of First Shipment	2022/7/27		
Customer Approval	<input type="checkbox"/> Approval required <input checked="" type="checkbox"/> Only notification, no approval required		
Change Level	<input type="checkbox"/> Major <input checked="" type="checkbox"/> Minor		

Reason for Change

Item	Reason for change
1	1) With the gradual promotion of high-end modules such as 4G and 5G, in order to improve the appearance of the module, the process of the nameplate is changed from the label sticking process to the laser engraving process. 2) Environmental protection.

Change Content

Before change	After change
The module with a shielding cover: Label process. P/N information is available. Note: New products without a shielding cover are not involved in this change.	Use laser engraving logo instead of paper label logo. P/N information is unavailable. (You can get P/N information by using the serial number query function of the PMS system.)
	

Impact of Change

The module PN customization cannot be supported, that is, the customized PN code of customer cannot be directly reflected on the module's logo. Customers can query the PN information through the serial number information query function of the PMS system, or obtain the PN information on the reel label and the outer box label.
